DREADFUL DISASTER

Fort Smith Visited by Death-dealing and Destructive Cyclone Last Night.

FIFTY PEOPLE WERE KILLED

Fire Added to Horrors of the Night and It is Supposed That Many of the Missing Were Cremated.

LARGE PART OF THE CITY IN RUINS

Storm Came Up Suddenly from Southwest and Did Its Appalling Work in the Twinkling of an Eye—Hundreds Are Homeless—Many Injured.

Fort Smith, Ark., Jan. 12.—A terrific cyclone struck this city at 11:15 last night. Fifty persons are dead and as many more are missing.

Hundreds were wrecked by the score and hundreds are without food or shelter. The situation is appalling. The dead are:

Ed Farrill.
Roy Farrill.
Irene Farrill.
John Ball.
Riley.
John Martin.
Two LeFevre boys.
Joe Kilos.
Paul.
Mrs. Will Lawson.
Frank Richardson.
George Lover.
George Carter.
Louis S. Enger.
John Martin, Jr.
Four unknown.

The list is by no means complete. But little effort has been made to search the ruins of the residence portion of the city that was in the storm's path.

Fire broke out in a number of places. It is known that some bodies were cremated.

The high school building, just finished, costing \$100,000, was leveled, beside one or two churches.

The storm came up suddenly from the southwest, and in the twinkling of an eye a large portion of the city was in ruins.

All the physicians in the city are at work dressing wounds and binding up broken limbs.

The home of Mrs. Hendrix, on Thirtieth street, was destroyed and the family nearly all killed.

Both of Dr. Gates' arms are broken and his wife is probably fatally crushed. The wife of Luther Hunter was badly injured.

Mrs. Hugh L. Rogers was dug out of the ruins of a rock house on South Ninth street. She is badly injured but hopes are entertained of her recovery.

R. L. Hirschberg was on his way home when the cyclone struck the city and was lifted off his feet and carried quite a distance. His clothes were torn off, his shoulder was dislocated and his head injured.

Details of Appalling Disaster.
At noon, it looks as though 50 persons have been killed. The death list is growing hourly. Hundreds of persons have been injured, some fatally.

The tornado, after passing through the residence district, did its worst work in that portion of the business districts in which the older buildings were located. For this reason \$500,000 will cover the loss.

The debris of many buildings in the lodging house district, caught fire, and those unfortunate, not at once extricated alive, perished miserably by being burned or smothered to death.

A heavy rain followed the terrible tornado.

In less than 30 minutes the streets were crowded and willing hands were ready to render all the aid the emergency required.

The streets were so filled with debris that it was with difficulty that carriages could get around.

Roll of Dead, Injured and Missing.
Following is a partial list of the dead and injured:

Two coal cars of the regular, and four box cars of the extra are smashed. None of the train crews were injured. Chas. Death has claimed another honored citizen and old timer of Grant county, through the passing way of Captain Webb, at Pinos Altos, last Sunday. On last Tuesday the captain was stricken with paralysis while at work and failed to rally with the above result. Deceased came to Grant county in 1879 and settled at Georgetown, and subsequently went to Pinos Altos and engaged in mining. He was about 65 years of age and leaves a wife and children to mourn his demise, reports the Silver City Independent.

W. G. Hamilton is the latest man to provide a diet of beet pulp for his sheep. He is feeding the old ewes to get them into proper condition for the lambing season. Mr. Crawford, who has 500 lambs at the factory, says they eat the pulp with avidity. Hay is fed in conjunction with it. The factory will have no trouble in disposing of all its pulp, which is being proved by stockmen to be a most excellent and fattening ration, says the Pecos Valley Argus.

Mr. Snediger is now doing as well as can be expected, says the Hillsboro Advocate.

The year of 1898 is going to be a record breaker in Gallup. The general prosperity of the whole country and consequent stimulus given to the railroad business is responsible for this state of affairs. Hernandez was then turned loose. Sheriff McAfee says that the person who committed the crime was a boy about 18 years old.

OHIO SENATORSHIP

Joint Ballot Resulted in Senator Hanna's Election As Indicated by Yesterday's Vote.

ATTEMPT AT INVESTIGATION

Separate Ballots Taken for Short and Long Terms—Senator Burke Grew Sensational in Speech Nominating Mayor McKisson.

Columbus, O., Jan. 12.—Senator Hanna is elected.

To Investigate Bribery Charges.
Columbus, O., Jan. 12.—When the house convened at 10 o'clock, Representative Otis was promptly recognized on a question of personal privilege. He made a long statement regarding the Boyce bribery charges. He said that it was due to the house and himself to have an investigation before proceeding further in the election of a United States senator, and offered a resolution accordingly. On a motion to suspend the rules for an immediate consideration of the resolution the vote stood, 32 yeas and 56 nays. The motion being declared lost, there were cheers on the Republican side of the house and in the galleries. The vote was precisely the same as on the two ballots for the short and long terms for senator. There are 109 members present, the Hanna men always voted solid. Representative Cramer was absent and is still very sick.

Forty-six Democrats and the bolting six Republicans voted together for an investigation before electing a senator. Representative Stewart, the Hanna leader, said there would come the proper time for the fullest investigation, but this was the time for electing a senator.

In the senate Senator Burke offered a resolution demanding an investigation into the charge that \$1,750 had been offered by alleged agents in the interest of Mr. Hanna for the vote of Representative Otis. Before a vote upon the resolution could be taken, a message was received from the house of representatives, stating that that body was ready to vote upon the election of United States senator. The president held that further discussion was out of order and the matter was laid over.

Hanna Elected in Joint Session.
In the joint convention, Senator Burke, the only dissenting Republican senator, presented the name of Robert E. McKisson, Republican mayor of Cleveland, in a forcible and inflammatory speech that commanded the closest attention. In one of his climaxes he said: "James A. Garfield would have voted for Mr. McKisson if he were alive and senator here today."

All Democrats voted for Mr. McKisson except General Wiley, who voted for Lemiz. Separate ballots were taken for the long and short terms but resulted the same: Hanna, 73; McKisson, 70; one absentee.

After Hanna was declared elected the galleries went wild and the cheering was deafening. The election of McKisson to the long term was a surprise to many of the representatives participated in the demonstration. A committee of five was appointed to escort Senator Hanna to the hall.

NATIONAL CAPITAL HAPPENINGS.

Bill Passed by the House Providing for Payment of Gold Transportation Charges by Shippers—Monetary Commission Heard—Other Items.

In the House.
Washington, Jan. 12.—The civil service debate having been concluded yesterday, interest in the house proceedings was visibly decreased today. Representative Cannon, chairman of the appropriations committee, called up the urgent deficiency bill, and a vigorous but unsuccessful onslaught was made by Representative Bell and Shafroth, of Colorado, and other far western members, on the provisions which would compel the gold producers in the future to pay transportation charges to the government mint, the house by a vote of 125 to 110 agreeing to that provision.

The monetary commission was given a hearing today by the house committee on banking and currency, on a bill proposing a comprehensive revision of the currency. Ex-Senator Edmunds, of Vermont, chairman of the commission, was the first speaker. He said that many believed, and he was one of these, that it is impossible to have more than one standard of value and the experience of the world was that the best standard was gold.

To Exchange Posts.
Washington, Jan. 12.—An arrangement has been perfected by which Chas. Page Bryan, of Illinois, nominated for minister to China, and ex-Senator Conger, of Michigan, minister to Brazil, will exchange posts.

In the Senate.
The senate today went into an executive session and Senator Davis continued his speech on the Hawaiian treaty.

SNOW STORM IN CALIFORNIA.

Cold Wave Swept Over the Entire State—Fruit Trees Not Injured by Unlooked for Drop in Temperature.

San Francisco, Jan. 12.—During the last 24 hours a cold storm has swept almost over the entire state. Snow has fallen in many counties, the semi-tropical belt not being exempt, and rain, which was badly needed, has come in sufficient quantities to gratify all growers of cereals. The weather is still cold, but all indications favor a raise of temperature, and fruit growers are confident, although the budding trees may be retarded, they will suffer no injury from the unlooked for snow.

Among the visitors here yesterday was Jones Taliaferro, a member of the well-known firm of Taliaferro Bros., at White Oaks. Mr. Taliaferro told his friends that White Oaks was enjoying a period of prosperity at present, such as it had not seen in years. The building of the railway into Lincoln county is increasing the confidence held in White Oaks by its citizens.

The first meeting in the new year of the Albuquerque council was held on Monday evening. The annual reports of the town officers were submitted and Mayor Albright delivered an address, reviewing the work performed in the various departments of the city's government during the past year. He spoke very encouragingly of the present state of the city's affairs and was optimistic in speaking for the ensuing year.

Early this morning Miss Annie Duncan, who lives with her sister, over the Sayre's millinery store, met with what might have been a very serious accident, but the young lady fortunately escaped with no broken limbs or anything worse than a bruise on her forehead. Her confinement to her room for several days, descending a flight of steps, which was covered with the falling snow, she slipped and fell headlong to the bottom.

Friends picked the injured young woman up and carried her to her room, where she is now resting easily under the care of a physician.

Frank E. Snyder, in charge of the surveying corps, which had been unearthing and leveling the Santa Fe track in this part of the territory, and who had spent his Christmas holidays in California, has gone to Topeka, Kas.

The sale of stamps at the east-side post-office, during the month of December, exceeded the sales of December 1896, by \$130, or more than an average of \$4 per day. This is proof conclusive of the improvement of business in East Las Vegas.

Chas. M. Higginson, assistant to the president of the Santa Fe system, accompanied by his wife and a number of friends, came in on No. 1, and went out to the springs. Tomorrow they will leave for the south. They travel comfortably and commodiously in special car 216.
